The opinions expressed in this column are the personal views of the writer and do not necessarily reflect those of the management; in fact, many times they do not.—Editor.

THOSE BINGO GAMES

The county officials have left the policing of municipalities to the local authorities. They will devote their efforts to unincorporated territory.

This is a sensible plan, but in this connection municipalities should co-operate, and show their good faith.

Many complaints are being registered against El Cerrito, that things are running wild there and at least some effort should be made to put the brakes on.

Much protest is being heard about the operation of the Bingo games. There are two of them, which are operating unmolested. The places run day and night. The unwary part so fast with their money that most of them leave with severe headaches.

Bingo, or whatever other name you wish to apply to it is an illegal game. No one is brazen enough to deny this assertion.

THE BOND ELECTION

A number of people have phoned, inquiring what the special August 13th bond election is all about and whether they should vote affirmatively or negatively.

The assumption that I am in a position to ladle out information and advice is flattering even though undeserved.

SOMEbody BLUNDERED

Frankly I am in a very unenviable state of mind concerning the election, and if I followed my lower impulses I am sure that I would be doing wrong. Personally I believe there would be no valid reason for an election had the matters involved been given proper and timely consideration by those upon whom the duty rightfully falls. But negligence and procrastination will not excuse us from our duty of taking proper care of the unfortunate.

FAGAN HELD AS COUNTERFEITER

ANTIOCH, July 24.—Federal authorities will come here tomorrow to take B. Simoni, 49, of Fresno and three youthful companions John Gilio, 18, Dan Tony Gilio, 19, and Al Ochirero, 18—to the federal courts in San Francisco to face charges of passing counterfeit money.

The four were arrested by Police Chief Al Leroy here yesterday afternoon.

Secret service men declared that Simoni is a "Fagan" who has been utilizing young companions to pass counterfeit bills. Federal agents said that Simoni's son was arrested some time ago and sent to reform school on counterfeit charges.

The boys told police that Simoni took them from town to town passing the bills.

New Alcohol Bill Is Passed

WASHINGTON, D. C., July 24.—UP—The House passed another milestone on the road to adjournment today when it adopted, 229 to 100 a bill setting up a Federal alcohol control administration in the Treasury department.

This left on its docket only two major bills—the Guffey coal bill and President Roosevelt's new tax-the-rich measure. The FACA bill was made necessary because the former alcohol control administration became extinct when the Supreme Court outlawed NRA.

The Senate passed the second deficiency bill, carrying \$310,000,000 for miscellaneous items, including \$25,000,000 for air conditioning the offices of Senators and Representatives.

MR. AND MRS. J. D. WILLIAMS and children are home from a visit to St. Helena, Calistoga and Nevada City.

THE WEATHER

BAY REGION—Fair today and tomorrow; fog near the ocean and overcast night and morning.

NORTHERN CALIFORNIA—Fair today and tomorrow; clouds and fog on the coast; normal temperature.

DRINK-CRAZED MAN SLAIN HERE

Pitchfork Is Used In Attack On Officer In Battle At Local Home

Tom Pucci, 50, of 107 Critchett Avenue, North Richmond, died at a local hospital this morning at one o'clock after he had been shot through the abdomen by Police Officer Harry Craycroft of the Richmond police department at midnight last night.

Pucci, crazed by liquor, police say, painfully wounded Officer Craycroft on the face with a pitchfork during a pitched battle in the back yard of the Pucci home. The officer was forced to fire to save his life. Craycroft suffered five wounds in the face where the prongs of the pitchfork had pierced his skin. Several of the wounds were dangerously close to his eyes.

ATTACKS AFTER BEING SHOT

Despite his terrible wound, Pucci grappled with the officer for several minutes before he finally became weakened by loss of blood and surrendered his weapon. Craycroft took him in a police car to the Richmond Cottage Hospital where he was treated by Dr. J. W. Bumgarner.

According to police reports, Patrolman Craycroft who was driving a radio patrol car, was sent to the Pucci home in North Richmond shortly before midnight on a call to police station that Pucci had been intoxicated all day and was annoying his family and neighbors.

Craycroft arrived at the home to find Mrs. Pucci and two daughters, aged 14 and 15, waiting for him. The officer said that Mrs. Pucci told him that her husband had been drunk all day and was "in a fighting mood." She said that he had left the house and had gone out into the backyard. The woman pleaded with Craycroft, asking him if he would go out and talk to her husband and quiet him down.

ATTACKED WITH PITCHFORK

Craycroft stepped out of the back door into the yard, he said. At that moment, the officer said, Pucci started toward him, holding a long-handled pitchfork in his hand, cursing the officer.

Craycroft attempted to quiet the man but he found it was useless. Instead, he said, Pucci renewed his attack, jabbing the officer in the face with the weapon.

FIRE SEVERAL SHOTS

Craycroft drew his gun and fired several shots into the ground near Pucci's feet in an effort to frighten the drink-crazed laborer. Instead, Pucci renewed his attack, stabbing the officer again.

Craycroft then raised the muzzle of his pistol and pulled the trigger. The bullet caught Pucci in the abdomen, tearing through him and out his back. Pucci was apparently unharmed by the shot and renewed his attack.

Finally grasping the pitchfork, Craycroft clubbed his gun and beat Pucci over the head. The man, weak from loss of blood and blows over his head, dropped his weapon. Craycroft then loaded him into his car and took him to the hospital.

OFFICER IS TREATED

Police Chief L. E. Jones and Deputy District Attorney Homer Patterson arrived at the hospital and sought to question Pucci, but were unsuccessful.

Craycroft was given treatment by Dr. Bumgarner for the ugly stab wounds on his face.

TWO INJURED IN CAR CRASH

Two persons were injured early last evening in an automobile accident at Fifty-fifth street and Carlos avenue in Richmond Annex.

Miss Eleanore Soldavini, 17, daughter of Charles Soldavini of 1710 San Pablo avenue, El Cerrito, suffered a bad cut on her right arm. Six stitches were taken to close the wound.

Glora Zaro, 4 year old daughter of Carl Zaro of 1441 Liberty street, El Cerrito, sustained cuts and bruises.

Both of the injured were treated at the Richmond Cottage hospital by Dr. J. W. Bumgarner.

The Soldavini girl was riding with her father when their car collided with a machine driven by Carl Zaro. Both machines were badly damaged.

2 Truck Drivers Burned In Crash

VISALIA, July 24.—UP—George Calkins, 22, Los Angeles, and Roy Steele, Selma, were burned to death in the cabs of their trucks when the two vehicles collided on the Golden State highway south of here this morning.

Passing motorists were able to pull Darrow Alback, Glendale, from one of the machines and rush him to a hospital here. He may recover, physicians said.

The dead men were identified when L. C. Yingst, Selma egg dealer who employed Steele, drove by shortly after the fire and recognized the ruins of his own truck. Oswald Calkins, brother of the Los Angeles victim, also drove by and identified his brother from belongings found along the road.

MR. AND MRS. L. W. McPHERSON have returned from a visit to Pinecrest.

BLAST PLOT IS TOLD AT TRIAL

LONG FACES OUSTER BY DEMOCRATS

NEW ORLEANS, July 24.—UP—Five Louisiana Congressmen started a movement today to have Huey Long kicked out of the Democratic party.

The plan is to split the Louisiana party into two factions, pro-Long and anti-Long, and probably will let the next Democratic National convention decide which side to recognize.

The Congressmen were aroused to a new assault on the Kimbrough by his "swinging attacks" on President Roosevelt, which they charged were motivated by "political disappointments and baseless delusions of grandeur."

NEW ASSAULT

The Congressmen were aroused to a new assault on the Kimbrough by his "swinging attacks" on President Roosevelt, which they charged were motivated by "political disappointments and baseless delusions of grandeur."

Ignoring Long's position as chairman of the Democratic State Central committee, the five Congressmen said "Long cannot stand any longer for the principles of the party, and we can rest assured the Democrats of Louisiana will have a full ticket in the field to oppose him in the January primary."

SPLIT REPEATED

The same split happened before the national party convention in Chicago, when President Roosevelt was nominated. Two sets of Louisiana delegates went to the convention, one led by Long, and the other by J. V. Sanders. The Sanders delegation was picked at a "runoff" State meeting.

Long cut Sanders out of them at Chicago, lined up behind the Roosevelt for President Long and got his side recognized.

Now, Long is completely at odds.

RELIEF BUDGET MOUNTS HIGHER

MARTINEZ, July 24.—Because of the lowering of the age limit from 70 to 65 years, a 75 percent increase in the number of aged in city who will be eligible to a maximum sum of \$25 monthly under the state old age security act's administration will raise the total of the 1935-36 Contra Costa county social service budgeted for requests from \$51,900, as of 1934-35, to \$100,000, it was revealed today. A normal increase, at 20 percent, would have meant \$62,280.

The department's requests in 1935-36 budget total \$230,129. Expenditures allowed in 1934-35 were \$250,569, of which \$214,175 has actually been expended.

Approximately 250 aged are now receiving aid from the county, and

Alfalfa Crop Is Damaged By Rain

SACRAMENTO, July 24.—UP—Jackson county alfalfa and corn losses from a severe electrical storm were counted in thousands of dollars today. The Boone River Valley fruit crop was not damaged seriously, however.

Everett Brayton and Ed Pett were knocked down by lightning, which struck near them, but neither was injured. Power failed when approximately 100 transformers of the California-Oregon Power Company were affected by lightning.

Three-fourths of an inch of rain fell in a half hour in Medford, inundating streets and sidewalks.

Jacksonville reported 1.31 inches less than an hour.

Flying Auto of Future Tested At L. A. Field

LOS ANGELES, July 24.—UP—The dream of an omnium bonum "flying automobile" bounced down the runway of Los Angeles municipal airport today, leaping into the air like a chicken going over a fence and soaring away into the sky, a sturdy, two-wheeled coupe mounted on a 10-foot wing spread.

Waldo Waterman, left, pipe-smoking designer, sat in the pilot's seat of the tailless airplane while Department of Commerce officials, headed by John H. Giesse, chief of aerial development at Washington, watched the weird craft go through its paces.

It was the first public performance of the plane, which has undergone secret tests for six months on a dry lake bed in the Mojave desert, near Rosamond, Calif.

Waterman regards his plane as only the precursor of the perfect "flying automobile" with detachable wings which can be laid away in the hangar while the stubby body is driven to the garage.

Before a gallery of government observers, the lanky, brown-eyed inventor taxied his plane out of its hangar unaided, drove it to a pump-out over a strip of ploughed field, its rigid, pump-sprung landing gear taking the rough ground like a tractor.

Wheeling it on its wing length, he sent it reeling down the gray asphalt runway for 100 yards, then it gave an unexpected lurch and mounted almost straight into the air.

Climbing swiftly it circled the airport, its long, V-shaped monoplane wings making it look like a soaring gull. It plummeted earthward, landing with scarcely a jar and came to a stop 30 feet after its wheels hit the pavement.

Waterman climbed out of the plane, scratched his head, and said "This is the plane," he said, "that designers said was impossible."

SLAVS TO HOLD MONSTER FETE

MORE THAN 100,000 people of Slav origin from California and adjoining states are expected to attend the All Day Slavonic Day celebration to be held Sunday, September 2, at the Richmond Hotel.

The committee performing plans for the big event are John Plech, Jr., V. C. Cukovich, Walter Maslov, Olen Maslov and John Smarich.

The afternoon program of the celebration to be held at the Pikes Club, will be headed by a musical in which prominent artists, from every section of California will participate. The program will be concluded at night with a grand ball.

This portion of the program is being arranged under the supervision of Stephen E. Stenovich, assisted by Stenovich, Peter N. Chumov, Olen Cukovich, Paul J. Cukovich, Sam Martonovich, Charles R. Ratkovich, M. B. Labis, Peter Cengia, and others from Northern and Central California.

On Saturday, September 7, and Monday, September 9, important business sessions of the executive committee of the Slavonic Alliance of California will be held in Oakland.

KIWANIS CLUB PLANS AVIARY

A discussion of ways and means of raising money for an aviary for song and ornamental birds was discussed last night when the Richmond Kiwanis Club held its dinner meeting at Hotel Carquinez.

The club decided at its last meeting that they would sponsor an aviary at the park here.

Dr. Kayho Daily showed motion pictures of the Panama Canal, Washington and Niagara Falls and of his home town at Lincoln, Neb. Dr. Daily took the pictures on his recent trip to the East.

Mahan Asked To Call For Machine

TACOMA, Wash., July 24.—UP—Federal Judge E. E. Cushman today refused to turn over to Government agents two automobiles used in the George Weyerhaeuser kidnapping. He indicated William Mahan, fugitive kidnaper, could have the cars if he calls for them, since he is the legal owner.

MRS. MAX CHINITZ and two small daughters have returned from an enjoyable two weeks' outing, spent on the Russian River.

Suspect Freed After Lie Detector Fails To Link Him With Crime

Subjected to the lie detector test and questioned by Sheriff John A. Miller for more than ten hours yesterday, Joseph Lombardo, Pittsburg shoemaker, was released from custody late last night and was ordered to hold himself in readiness for further questioning at any time.

Lombardo was grilled by Contra Costa county officials as to his knowledge of the mysterious murder of Antonio Fernandez, 61, well-to-do Pittsburg merchant who was found slain on March 1.

Lombardo was picked up by Sheriff Miller after Mrs. Lillian Barton Fernandez, widow of the slain man, told them that she had found the ignition key to her husband's truck at Lombardo's home three months after the shooting.

Lombardo steadfastly denied any implication in the case, saying that the woman had accused him to avenge her arrest on his charges that she had robbed him of \$25.

HELD FOR QUESTIONING

Lombardo was picked up by Sheriff Miller after Mrs. Lillian Barton Fernandez, widow of the slain man, told them that she had found the ignition key to her husband's truck at Lombardo's home three months after the shooting.

Lombardo steadfastly denied any implication in the case, saying that the woman had accused him to avenge her arrest on his charges that she had robbed him of \$25.

The lie detector was used on Lombardo by Patrolman Anthony Bledsoe, of the Berkeley police, operator of the device, but the machine showed no indication of lying.

In addition, Lombardo suffers from high blood pressure and the machine had to be removed several times. The lie detector checked suspected reactions to leading questions through measurement of respiration and heart beats.

Lombardo was unable to provide an alibi in the case but his

MRS. MAX CHINITZ and two small daughters have returned from an enjoyable two weeks' outing, spent on the Russian River.

MAN, WIFE ON STAND AT HEARING

MODESTO, July 24.—UP—An ex-priestfighter and his wife today told a jury in the trial of eight alleged strike-terrorists how the defendants purportedly obtained dynamite to be used to rout Standard Oil strikebreakers from a Patterson hotel.

George Brazelton and his wife, Helen, under questioning by District Attorney Leslie Chary, said that Alfonso Buyle and John Rogers had obtained 35 sticks of dynamite, a supply of caps and fuses, and two round cans labeled "powder" in Marin county.

OPENED PACKAGE

Mrs. Brazelton said she went with Rogers and Buyle to visit friends in Marin county. She said they returned from an unexplained trip, saying, "well, we've got the stuff."

On the way back to San Francisco the men opened a bulky package and counted out the explosives, she said.

GUARDS AT TRIAL

Brazelton substantiated his wife's testimony. He also claimed that the alleged plot was hatched at his home, although he refused to have any part in the prosecution, or to keep the explosives in his house.

Armed guards continued to patrol the Stanislaus county courthouse as county authorities maintained safeguards over prosecution witnesses.

James Scudler, ace witness for the state, concluded his testimony today, unshaken in his story after 12 hours' cross examination. Scudler, likewise charged Rogers and Buyle with obtaining the explosives for the purported plot.

CREDIT BOARD FOR S. O. UNION

Formation of a credit association for Standard Oil company employees was discussed last evening at a large crowd of members of the Standard Oil Employees' Association and plant workers met at a cafeteria.

A committee of nine members appointed to take steps to organize the association. George Brooks, A. A. Aulry, Glenn Conn, R. W. King, L. R. Hess, Ivan Ims, J. D. Rowden, C. C. Bryant and E. A. Patterson are on the committee.

Under the plan, employees may borrow from the association an amount up to \$2000 and may repay the money at a reasonable rate of interest. Members will buy stock in the organization and this money will be used for loans.

Action will be taken on a hospitalization plan for members of the association. It was announced. A committee will be named at the Aug. 2nd 7 meeting to study all health insurance plans and to select the best one.

Telephone Office Workers At Meet

Business office employees of Napa, Solano, Contra Costa and southern Alameda counties for the Pacific Telephone and Telegraph Company gathered at the local telephone business office last night.

The 30 employees present discussed ways and means of improving service in business offices.

Baby Clinic Will Be Held Here Today

The well baby conference will be held this morning at 10 o'clock at the Washington school, health officials announced yesterday.

Ukiah Man Will Succeed Roche

SACRAMENTO, July 24.—UP—R. Ray Ingels, Ukiah, was today appointed director of the department of motor vehicles, succeeding Theodore Roche, San Francisco, resigned.

Governor Frank F. Merriam said Ingels will take office August 1. A new legislative act, effective September 15, provides a \$6,000 annual salary.

GIANTS DEFEAT
DIZZY DEAN TO
CONTINUE LEAD

ST. LOUIS, July 24.—UP.—In a small comedy of errors and a superb pitching performance, Carl Hubbell, the New York Giants' ace, today, 4 to 1, defeated the Cardinals' Dizzy Dean, who was the pitching star of the game.

Today's victory squared the season series at two games apiece, and left the Cardinals in the lead.

Hubbell pitched the Cardinals' only two scattered hits, and earned the win, the other coming on an error by shortstop, Phil Bickel. In the third inning, Hubbell pitched a perfect game, but a second inning blow by a home run by the Cardinals' Jimmie Foxx, who had a season's worth of home runs, ended the perfect game. Hubbell pitched a perfect game, but a second inning blow by a home run by the Cardinals' Jimmie Foxx, who had a season's worth of home runs, ended the perfect game.

Then the volume of the score shifted. Ott shined and went to third on Hank Lathers' double. Travis Jackson, who had a hard roller to Martin down the third base line, Penner scooped it up and hurled quickly to Rip Collins on first. The ball went several feet over Collins' head, and by the time it was retrieved, Ott and Lathers were home and Jackson a third base.

Dean was upset. He spoke to Martin. Then he walked. Hubbell, the Giants' catcher, Hubbell, out for the kill, singled, scoring Jackson. Danning pulled up at second, Joe Moore cracked, up a single and Danning scored. Hubbell holding second. Four to one, Giants.

It was one, two, three after that, with Lortel striking out, Hushie Fritz flying out and Manager Terry forcing score at second.

"We want a homer," shrieked thousands of women when Martin went to bat in the eighth. He did pop out a single, but was forced at second by Rothrock, reached third on Waddell's single, and scored the Cardinals' second and final run as Joe Medwick's long fly to left.

The third ended when Rip Collins doubled, putting Waddell on third, and V. Davis, the Cardinals' catcher, was thrown out by Hubbell on a tight play.

Speaking
of Sports

PHILADELPHIA, July 24.—UP.—An invitational marathon race over the course distance of 26 1/2 miles, in which many of the nation's outstanding distance runners are expected to compete, will be held in Philadelphia on Friday, August 2.

The winner may be designated as a full-fledged member of the United States national team of three men which will compete in the Olympics in Berlin next summer, according to Lawson Robertson, coach of the 1932 U. S. Olympic team. Robertson is assistant manager of the Philadelphia Athletic Association, an Olympic club for the Labor Day race.

Entrants from many sections of the country will be invited, according to Whalen, and he added that

CONNIE'S SOUTHPAWS

DETROIT NINE
WINS VICTORY
OVER YANKEES

YANKEE STADIUM, New York, July 24.—UP.—Behind the four-hit pitching of that ancient curveball wizard, General Alvin Crowder, the Detroit Tigers today swept in to a virtual tie with New York for the American League lead by blanking the Yankees, 4-0, in the third contest of their "terrible" four-game series.

This victory left the Tigers just behind the Yankees in the league standing, with their records as follows:

New York . . . 51 33 6071
Detroit . . . 51 35 6067

If the Tigers win tomorrow's final game of the series, they will depart from New York with the league lead in their pockets.

Today's contest brought a 4-0 to a climax, the amazing Detroit drive which started on June 21, when Mickey Cochrane's Bengals were thundering in fourth place, seven and a half games behind the Yankees.

And just like the sunshine and shadows which have hovered over the Tigers' current season, today's contest was interrupted 47 minutes by a thunderstorm, after which the sun came out and dried the field again.

While General Crowder, veteran right-hander obtained from Washington last August, was settling down the Yankees with four singles, the Tigers pounded another right-hander, big red head Charlie Ruffing of the Yankees for 11 hits, including Joe White's home run in the first inning.

It was a vengeance victory for Crowder. In his last tilt on June 19 the Yankees shelled him out of the box. Ruffing lost his last start to the Tigers in that same Detroit series.

Bad weather held today's crowd down to 11,895 compared to 61,000 who saw the clubs split yesterday's doubleheader.

While Crowder, who started pitch for professional baseball 12 years ago, was handcutting the Detroit right-hander, his mates added three more tallies to White's home run in the third inning, by virtue of two walks, a sacrifice and three singles. The Yankees did not threaten in any inning, their stick work being limited to single.

This was indicated in an ultimatum presented to the San Jose school, signed by Earl H. Wright, local director of athletics.

Reiterating that Fresno "stands squarely behind the conference" Wright informed Dudley De Groot, head football coach at San Jose, that San Jose must agree to observe conference eligibility requirements by August 1, otherwise Fresno will cancel the game scheduled for October 26.

In an announcement emanating from official sources at San Jose last week, the school withdrew from the conference, explaining that it intended to depart from the eligibility rules laid down by the organization.

Farrell's fingerprints and description were found to differ from those of the suspected hand-killer after a check by Tacoma, Wash. authorities.

Justice L. E. Bailey ordered Farrell held, however, pending determination as to whether he might be John Duncan, wanted by Fresno authorities on a failure to provide charge.

PHILADELPHIA, July 24.—UP.—Police today absolved Edward L. O'Farrell, Tacoma hitch-hiker, of any connection with the robbery of an Orleans, Wash., bank and the slaying of two Duvallup, Wash., policemen.

O'Farrell's fingerprints and description were found to differ from those of the suspected hand-killer after a check by Tacoma, Wash. authorities.

O'Farrell's fingerprints and description were found to differ from those of the suspected hand-killer after a check by Tacoma, Wash. authorities.

Justice L. E. Bailey ordered Farrell held, however, pending determination as to whether he might be John Duncan, wanted by Fresno authorities on a failure to provide charge.

PHILADELPHIA, July 24.—UP.—Police today absolved Edward L. O'Farrell, Tacoma hitch-hiker, of any connection with the robbery of an Orleans, Wash., bank and the slaying of two Duvallup, Wash., policemen.

O'Farrell's fingerprints and description were found to differ from those of the suspected hand-killer after a check by Tacoma, Wash. authorities.

Justice L. E. Bailey ordered Farrell held, however, pending determination as to whether he might be John Duncan, wanted by Fresno authorities on a failure to provide charge.

Starts Training

JOE LEWIS, Negro heavyweight boxing contender, as he started training in Chicago for the bout there with King Levinsky. Lewis is seen as a favorite to knock out Levinsky although it probably will be a heavy slugfest match from both quarters.

BUDGE ROUTS
GERMAN ACE
IN TOURNEY

WIMBLEDON, Eng., July 24.—UP.—The Davis Cup hopefuls polished off their German rivals in the interzone tennis final today with a flourish, winning by the final team score of four matches to one and qualifying to play England for the coveted trophy starting Saturday.

After Wilmer Allison, the veteran from Austin, Texas, put the series on ice with a straight-set 6-1, 7-5, 11-9 triumph over glum-faced Helmut Gneissel to give America her third victory in the five-match engagement, flaming-haired Don Budge of Oakland, Cal., supplied the finishing touches with a spectacular 6-0, 9-7, 8-6, 6-3 upset victory at the expense of the formidable Baron Gottfried von Cramm.

While it was All-on who stormed the net under a broiling sun to bring off the decisive victory, it was Budge who captured the imagination of the spectators and sent them shouting toward the exits. It wasn't a question of establishing himself with Wimbledon galleries—he did that a few weeks ago when he upset England's popular "Bunny" Austin—but he did virtually assure himself a singles berth for the climatic clash with England. His victory over Gneissel Saturday and today's triumph made him almost indispensable.

Clubs Lodges Society

ZEPHYR LODGE HAS BUSINESS MEETING HERE

Business matters were discussed last evening when the Zephyr Lodge of Icelandic met with Clara Willis, noble grand president.

The financial committee for the year was named by Mrs. Willis. On this committee are Mabel Mason, Dorothy Penning and Ann Zurlin. Lester Slow was named as drill captain with Jack Paeth as assistant.

Announcement was made of the Contra Costa picnic for Old Folks and Relatives to be held August 17 and 18 at the Odd Fellows recreational grounds at Rialto River.

After the meeting a whist party was held by the lodge's sewing club with Mrs. Willis and Joella Bonham in charge.

W. O. M. LODGE MAKES PLANS FOR CONCLAVE

A discussion of the Moose convention to be held in Oakland August 8, 9, 10 and 11, was held last evening when the Richmond Lodge of Women of the Moose convened at the Woodmen hall. Plans were also discussed for the district meeting July 28.

Reports were heard from the home-making class, headed by Nellie LaLonde, and from the library committee.

One new application was received by the lodge, Theresa Larsen.

Refreshments were served by Marie Lee Kelly.

MR. AND MRS. W. H. KLEIN, KATIE are home from a two weeks' vacation at Yosemite Park.

MISS LORRAINE MONTE has ended a two weeks' vacation visit to Seattle.

A visit to Meeks Bay, Lake Tahoe was enjoyed by MR. AND MRS. WILLIAM PETERSON.

EXCLUSION ACT IS SCORED BY PRESBYTERIANS

WESLEY M. E. LADIES AID PLANS EVENTS

Preliminary plans for a harvest festival to be held in November were made yesterday when the Gen- eral Ladies Aid Society of the Wes- ley M. E. church held its meet- ing at the church parlors.

A committee meeting will be held next week at which time a date will be set for the affair and com- mittees will be named.

Mrs. Huber Heran, wife of the new pastor of the church, was a honored guest at yesterday's meet- ing. She gave an interesting talk.

Prior to the meeting, which was presided over by Mrs. Anne Ham- mon, the group enjoyed a pot-luck luncheon served by members of Circle No. 5, under the direction of Mrs. Olive Jackson.

K. P. LODGE WILL HOLD CONVENTION

A reception to the district de- puty, Walter Adams, of Pinole on August 7, was planned last evening when the Richmond Lodge of Knights of Pythias met at Brotherhood hall.

Ritualistic Inspector Harold All, also of Pinole, will be present at that time. Plans will be made for the district convention which will be held here August 28.

Reports were heard on the visit paid to the Pinole lodge last Mon- day night, and on the reception held Monday night in Berkeley in honor of Grand Vice Chancellor James Galen of Hollywood.

HONOR POST WILL HAVE WHIST PARTY

Honor Post, V. F. W., is prepar- ing for a card party to be held on the evening of August 22 at Mem- orial hall for the benefit of the senior drum corps.

The drum corps was organized several weeks ago and has been holding a practice session each Monday evening at Alvarado Park. Proceeds from the whist party will be used to purchase uniforms and equipment.

Many prizes, including a valu- able door prize, will be awarded the players. The public is invited to at- tend.

TAHOE GROUP HAS BUSINESS MEETING HERE

Tahoe Council, Degree of Po- nehonota, held a short business meeting last night at the Rich- mond Clubhouse with Marie Cer- dona presiding.

Announcement was made that past Poehonota's emblems have been presented to Pearl Smith and Anna Prather.

Evelyn Cook had charge of the social hour and refreshments that followed the meeting.

Monday night the lodge will hold a whist party at the home of Anna Prather on Riverside Drive.

TRENT CAREY, retiring prin- cipal of the Lincoln school and Mr. Della Roeder of Washington school, have returned from a trip to the Panama Canal Zone.

Will Marry Her

LADY SYLVIA ASHLEY, former London stage star, who accompanied Douglas Fairbanks, screen player, half way round the world, waited in Vancouver, B. C., while Doug dashed to Hollywood on business. They sailed from Quebec for London and Doug said on departure that he would marry her.

Missing Boy, 2 Is Feared Dead

COEUR D'ALENE, Idaho, July 24.—UP—Three hundred CCC workers, who searched all night in a driving rain for Bobby Rush, 2, missing for four days, despaired tonight that he would be found alive.

The boys' parents, Mr. and Mrs. A. W. Rush, claim to believe he has been kidnapped, although police were skeptical.

The search concentrated among the woods and rivers surrounding a picnic ground from which he disappeared Sunday.

Merriam Denies He Seeks Glory

SACRAMENTO, July 23.—UP—Governor Frank E. Merriam today denied political ambitions for next State office. Merriam has been mentioned at times as a possible presidential candidate, and has been reported as forming the post of Republican national commit- tee man.

The last thing in the world I should want to be," Governor Merriam said, "would be national com- mittee man."

Ousted Official Sues For His Job

LOS ANGELES, July 24.—UP—Dr. William T. Cade Jr., doctor, had on file a petition for a writ of mandate to force State officials to restore him as medical director of the State Compens- ation Fund.

Political activities, Dr. Cade said, were responsible for his re- moval. He was discharged from the \$45-a-month position April 15, after having served for 11 years.

VATICAN GUARD DEAD

ROME, July 24.—Count Filippo Saracini, 65, lieutenant general of the Vatican Noble Guard, with whom he served under the last two Popes, died last night after a long illness. Among his numerous honors he acted as special ambas- ador for the Holy See to the former king of Spain and to the late Emperor of Austria.

P. R. MILNES

CREW PRAISED IN COLLISION OF TWO SHIPS

SAN FRANCISCO, July 24.—UP—Heroism of the crew of the freighter Calmar tonight was credited with having played a large part in keeping the vessel afloat after the Japanese freight- er Koryu Maru had crashed her bow into the ship's starboard side.

The 36 men aboard the vessel returned to the ship after taking to the lifeboats at Captain Axel Mikkelson's order. Captain Mikkelson and his officers deter- mined seaworthiness of the ship after the crash in a heavy fog about 15 miles south of the Golden Gate last night.

The crew then manned the Calmar's pumps, adding in the task of keeping her afloat. Water poured into the Number one and two holds. The Koryu Maru, riding high, struck the Calmar above the engine room, thus inflicting a major loss destructive than if she had struck below or aft.

The Koryu Maru, bound for San Francisco from Yokohama, re- ceived only dented plates in her prow. She proceeded under her own power to San Francisco. The Calmar, a coasting ship, was towed to port, leaking badly, a por- tion of her lumber cargo ground to matchwood.

Twelve members of the Calmar's crew were taken aboard the Koryu Maru, carrying 40 men, by lifeboats from the Japanese ship.

Damage to the Calmar was es- timated in excess of \$150,000.

A Calmar line attorney, Theo- dore M. Levy, said that blame for the crash would be attributed to the Koryu Maru. Captain M. Mikkelson of the Japanese ship said that he and his crew heard the Calmar's fog horn too late to avoid striking her in the dense fog.

MR. AND MRS. D. R. COOK spent their vacation on a fishing trip on Silver River.

MR. AND MRS. FRED HANSEN have returned from a trip to San Diego.

band came. There is nothing, therefore, to do under the circumstances than to go to the polls and add to the staggering tax burden we are now carrying.

LIKE IT OR NOT

All of the objects, or propo- sitions, call them what you may, are mentioned in these cases, and part of our civic obligations. While there is a deep rooted prejudice and antipathy to bond issues, we should not be blind- ed to the necessities of the situation.

Like it or not we must shoulder the burden. With all known sources of revenue-raising seem- ingly exhausted, it appears that the final and only recourse is a

NUI CLUB WILL MEET HERE FRIDAY

The Nui Club of Beacon Chapter will be entertained Friday at a meet- ing at the home of Mr. Florence Morison at 3313 Rockwood avenue. Mrs. G. Corde will act as host.

Mrs. Nellie Day will preside over the business meeting. All members have been urged to attend.

MR. AND MRS. E. L. JENKINS returned home yesterday from a visit to Elmerest.

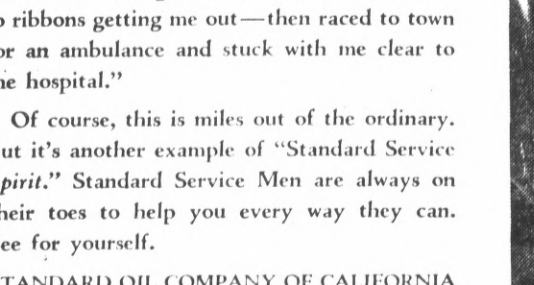

"Glass or no glass -- HE GOT ME OUT!"

"What a vacation for a druggist—just another round of medicine, splints and bandages! I was heading for a cool beach, on all eight cylinders. Suddenly I hit soft sand and the whole world turned upside down. My car plunged into the ditch and I was pinned in it.

"Luckily a Standard Service Man on his way to work was right behind me. And he wasn't afraid of broken glass either! He cut his hands to ribbons getting me out—then raced to town for an ambulance and stuck with me clear to the hospital."

Of course, this is miles out of the ordinary. But it's another example of "Standard Service Spirit." Standard Service Men are always on their toes to help you every way they can. See for yourself.

The desire of every Standard Service Man is to render Service as Unsurpassed as the gasoline he sells. This unusual and dramatic incident illustrates, not the friendly services constantly rendered, but some of the exceptional efforts that are the direct out-growth of the "Standard Service Habit."

OUR-OWN-DAILY-MAGAZINE-PAGE

YOUR HEALTH

The "Cimex Lectularius" Is a Mean Pest and Very Hard to Kill

By CLAUD NORTH CHRISMAN, M.D.

ONE of the most disagreeable and persistent of our pests is the "Cimex Lectularius," or all-too-common bed bug. He may not carry a great many disease germs, but he meets a great lot of condemnation as he goes. He is only about one fifth of an inch long, of a rusty brown color, and so flat that he can hide in almost any sized crack or crevice.

It is said he prefers the blood of birds and bats, but he surely does not confine himself to a strict bird and bat diet, since he enjoys human blood very much.

He bites and he sucks blood. On the under side of his head are his cutting and sucking instruments, and he has no difficulty in cutting through the outer skin. He may bite through five or six spots before he reaches a small blood vessel from which he sucks the fluid, fills up till he's about ready to burst and then crawls away to digest that.

His only manner of locomotion is by walking, but he travels long distances in baggage, clothing or any other thing he can hide in that is moving. He lives a long time without food, so that no matter how long he is shut up in your baggage, he is ready for business as soon as released.

He probably only carries blood diseases from one person to another, though poisonings of many kinds may result from his bite. Many times his odor, which is very disagreeable and quite characteristic, is worse than his bite.

Has Many Enemies

But, with certain individuals his bite causes quite evil consequences. Frequently the bitten area becomes red, swollen and painful and in some persons a very general painful eruption results.

He has many natural enemies besides man. The cockroach hunts and destroys him very persistently. The little red housefly enjoys feeding on the bed bug. Spiders are his natural enemies and the house centipede does away with all he can find. It is almost impossible to starve the bed bug out. They have been sealed in a pill box for a week and were still alive and ready to go to work when released. He is as much at home in a palace as in a hovel, and will bite a king or a pauper with gusto.

Many methods have been used to destroy these pests, all more or less unsuccessful. Hydrocyanic acid gas kills readily, but this is too dangerous for general use. Fumigation with sulphur for four or five hours kills the bugs, but does not destroy the eggs. Kerosene, gasoline or benzine seems to destroy them, but the danger of fire is great and they frequently come back to life.

Raising the temperature of the room to one hundred and sixty degrees Fahrenheit for some hours destroys all but the eggs. One of the safest and most successful eradicators is a strong solution of carbolic acid. Sprayed all about them and their hiding places or applied with a sponge tied to a stick, and the process repeated if necessary, it will do the work.

Meanest of All

In this list of undesirable we are forced to include the one that is really the meanest of all, and that is the flea. It is also a blood-sucker whose piercing organs are the mandibles so he can chew as he sucks blood. In the process, he throws out his own saliva, which if not actually infected with disease germs, is very irritating.

Fleas are parasitic on most mammals and birds and there are a hundred or more kinds of him. He loves the long-haired pets which we like to keep about us. He leaves the harbor of the dog's coat for an occasional sortie under our garments. His name means to take flight, but he has no wings. He doesn't need them.

His chief characteristic is his power to leap. He could do a pole vault at eight feet and a broad jump of thirteen, according to his records. For us, his chief reputation lies in the fact that when we grab for him he is already a leap ahead.

It isn't a mere matter of exasperation for this tiny insect carries trouble with its bite. It is credited with being the specific carrier of the bubonic plague by leaving the infected shores on the bodies of rats, traveling by sea or land, until new hosts are found among human beings.

Consider the Room

When purchasing a bed, consider the size of the room before deciding on the style. And remember that a four-poster bed gives a small bedroom a crowded effect.

Profiles For Today

Paul A. Walker Is to Make Utility Survey

By TALBOT LAKE

THE question of utility monopolies has long been a teaser among public and private minds and nothing much seemed to have been done about it. Now, however, we may look for some real information, for Paul A. Walker, chairman of the Telephone Division of the Federal Communications Commission, is about to start on a survey of the great American Telephone and Telegraph Company to discover what makes the wheels go round and whether they could not keep going with less expense to the consumer.

Mr. Walker is not in any sense a "utility biter," never having been identified with any "soak the utilities" group. As a resident of Oklahoma he has, however, saved his neighbors many millions of dollars through his rate-finding studies.

He is, first of all, a realist, this man who was born in New York. He learned as a boy to count pennies, being born in a remote log house in southwestern Pennsylvania, where pennies are scarce. Then he taught in a little red schoolhouse and sold magazines to help him through the University of Chicago and the University of Oklahoma, where the studied law.

He started as a country lawyer, but in 1915 he became attorney for the State Corporation Commission, and began to step out. He was made a member and then chairman of the commission, and it was in the latter post that his showing of savings to the public brought him national recognition. He was lieutenant-colonel and Judge Advocate-General of the Oklahoma National Guard when he was summoned to Washington.

Mr. Walker's plan of survey takes in the A. T. & T. thoroughly—its 20,000,000 phones, its capital and physical structures, its rates, and its dividends. When it all comes out in the wash he will certainly have something to suggest.

A Cooling Salad

If you are looking for a cooling salad to accompany the meat course, try pickled beets on lettuce.

IN VOILE

Voile printed in white and red floral patterns on a blue ground offers coolness for summer wear in this simple frock with fabet revers and embroidered with rosette. The loose short sleeves are scalloped at the edge.

Shining Hair One Part of Beauty Role

By JACQUELINE HUNT

BRIGHT, shining hair is just as important to your summer beauty as a clear, youthfully flushed skin and sparkling eyes. Make yours silky and bright, and let it curl or wave softly, if it is so inclined, and see how much attention you will command at your summer parties and picnics.

Use melted soaps or liquid soap shampoos when you wash your hair, or try the water-soluble oil shampoos that you can use as often as you wish. Remove all trace of your cleansing preparation with half a dozen rinses, having strained lemon juice or vinegar in the last or next-to-the-last water to remove any remaining soap curds.

Dry your hair by hand in the fresh air and sunshine whenever possible. Of course, there are times when you must have your waves set and dried immediately under the drier, but even this can be made easier on the hair if your operator will remove some of the water with an absorbent towel before you sit down.

Every dressing table should be equipped with a bottle or little jar of good brilliantine to keep your hair orderly and to prevent the drying effect of the sun and wind during the hot weather. The soft paste or cream brilliantines that you rub between your palms and then work into the hair are especially good for this purpose.

There is another delightfully fragrant and easy-to-use brilliantine that comes in a leak-proof bottle with a small atomizer that can be screwed in place when you are ready to use it. Use it liberally, especially when you are sunning yourself on the beach or lawn.

Pomades are also excellent for preventing split ends and roughened sun-burned hair. If you so barbeque a lot, work a small amount of the pomade into the ends of your hair every night. Brush your waves, too. The hair needs lots of nourishment to keep it soft and manageable, and no matter how lovely your hair may be it must stay in place if you want others to appreciate it.

If your hair is straight and stringy at present, do something about it. If you are one of the girls who really find straight hair becoming—and I think not half enough girls wear their hair straight—then give it some hot oil shampoos to improve its health and luster. Hot oil will actually encourage a soft, natural wave in some hair. Anyway, it will give your hair more body, so it is no longer stringy or unlovely.

Lemon rinses are also good for straight hair. If your hair is blonde or brown it will give it nice golden lights; if it is black lemon juice will bring out the lovely bluish tones. If straight hair isn't becoming to you, then get a permanent or the combination or crinoline type that you can set in natural-looking waves and soft curls. Remember that with a new permanent you will need several hot oil treatments and a lot of brushing at first to make it what you want it.

Beauty Tips

QUESTION: "My skin is literally peppered with tiny blackheads. No matter how much I scrub and squeeze, I cannot get rid of them. Sometimes they form little white spots of pus. They are not really pimples, but nearly as disgusting. Can you suggest something?"—S.S.

Keep up the scrubbing, preferably with a soft complexion brush and a special blackhead preparation or soap. A good astringent or ice water to tighten the pores after cleaning will help. I would also suggest that you eliminate rich foods from your diet for a while and eat more green vegetables and fresh fruits. Drink eight to ten glasses of water daily. I will give you the names of some good blackhead preparations, if you will send me a self-addressed, stamped envelope for a personal reply.

QUESTION: "I have heard there is a preparation that is a combination oil treatment and dye for the hair. Is this safe to use at home? My hair that I have bleached is beginning to grow out and is streaked."—Anne.

There are several of the oil-tints for the hair. I have seen them demonstrated with excellent results, but the job is best done by an expert, especially since your hair has been previously bleached.

New Hat from Hawaii

Mrs. Richard M. Frazier, of Honolulu, is shown wearing one of the new bleached lauhala hats, made in Hawaii, for which an increasing demand is being made by fashion centers in other parts of the United States. Tapa is used for trimmings.

Dishes for Today

Cooking Job Made Easier By Planning

By JUDITH WILSON

IT HASN'T been so long ago that women dreaded the approach of summer vacation days. Cooking seemed twice as hard, with the heat and the children running in and out the entire day. But they have learned that all this work and fuss is unnecessary. Planning means less work and more time to enjoy yourself.

Use the dining room as little as possible. Have your meals on bridge tables on an open porch, on trays on the lawn or away in some shady nook as far from civilization as you can get. Cook your meals ahead in the cool of the morning even before you do your breakfast dishes. Let the children help if they can.

Choose meat dishes that can be made in advance and reheated or eaten cold. Have jellied salads or chilled desserts that are ready whenever you want them. Make up cake batters, cookie dough and eleven yeast rolls that you can store in the refrigerator and use as needed. This week's menus contain some suggestions that will mean more leisure for you.

SUNDAY

Breakfast
(In the open)
Fresh Raspberries and Cream
Bacon, Kidney and Sausage
Kabobs
Toasted English Radishes
Marmalade
Coffee
Hot Chocolate
Plenish Dinner
Chilled Tomato Juice

Coffee
Dinner
Consomme
Cold Sliced Tongue or
Toasted Tongue Sandwiches

Felt Hats Held in Favor Despite Season of Straws

By IRENE VAIL

NEW YORK—Although primarily a straw season, it's remarkable how many taffetas and felt hats are being worn. The tailored type of woman is partial to banded felts, and this season gives us many good looking white ones banded with dark colors. Lacing is a detail on some models worn and stitching remains much the vogue.

One smart shop has featured a navy blue felt man-made beret, and women find it a most acceptable headpiece for such occasions as motorcycling, or any sort of land or sea touring.

Paris is engaging herself with autumn hats, still experimenting with berets of various origins. The Renaissance beret is spoken of with bated breath by those who have seen it. It seems that hats are best of two, rather than one, color. Colors like dusty rose and old blue, or other reds and blues, are spoken of as being new.

Appropos of current novelty fashions, let me also remind you that fruits as well as flowers are being worn on summer hats. Two large peaches decorate the side of a hat of the profile type in white exotic straw. Veils also serve to trim some of the most charming hats of the moment.

One of the popular fashions of the moment is the wide-brimmed hat trimmed only by a grosgrain band about the crown and a well arranged mesh veil—well arranged meaning usually over the brim. White hats have navy or red mesh veils. Dark hats sometimes have white veil trimmings.

Naturally, white hats are top at this season and the prevailing habit of moderns to wear white accessories, with dark clothes makes the white hat a better buy than ever. A navy or black costume with white hat, gloves, and bag is very chic.

Flower headresses are rampant in great variety, and some feathers are included in this manifestation of favor for hair ornamentation.

Modes and Manners

QUESTION: "What should a hostess do when a guest calls up the last minute to say that he is unable to come?"—Mrs. N. B.

ANSWER: She may call upon a friend, explaining the circumstances, and asking her (or him) to fill in as a special favor to her.

QUESTION: "When one cannot accept an invitation, is it necessary to go into detail, explaining why he cannot accept it?"—O. W.

ANSWER: Courtesy demands that the excuse for non-acceptance of an invitation be adequate. This means, of course, that one must give a definite reason.

Cooked Vegetable Salad with Tomato-Radish Garnish
Strawberry Shortcake

MODERN WOMEN

All the Fun in Life Does Not Disappear With Youthful Years

By MARIAN MAYS MARTIN

BEING greedy about pleasure invariably brings about some sort of payment for the piper. It's assumptive of youth to take the attitude that one only enjoys life when young. One gathers wisdom with the years even in such matters as what constitutes enjoyment and how to get it.

You and Your Child

Doing Chores Should Not Be Punishment

By JANE HERBERT GOWARD

BILLY was through playing with his toys for the present. He had a new occupation now. As he stood at the window, busily pressing the palms of his hands

against the screen, since I certainly am having an awful time holding down both my job and my social career? I do love to go out and after all, I will never be young again. Pretty."

System is the answer to your problem—system and self-control. To begin with, your escorts and other friends know you to be a business girl, so they must make allowances.

Tub Is Stimulation

None of us wears so many clothes just now that it needs take any particular amount of time to undress, jump into a warm bath, and get into fresh ones. The tub is a stimulation necessary to doing any creative work, if you make use of the time it takes to run it you will not find it eats up any more to jump into a tub than to do the necessary ablutions.

Women who don't think ahead usually get into a jitter at the last moment, dumping the contents of one bag into another. That's a senseless waste of precious time. Keep your evenings bag always stocked with the necessary war paint and keep your stockings and handkerchiefs and gloves together, in a place sacred to them, so they may be gathered up at once without unnecessary rooting about in the bureau. Any avoidance of hurry and flurry will help you gather poise for the evening. Maybe you had not thought of doing any creative work and maneuvering while relaxing in your warm tub—it's a good idea if you happen to find time soothing, and most of us do, if you prefer a shower, that, too, is stimulating.

Women who are always salping about creating an impression of being in a mad rush are very trying persons to have about. It may take a great effort of will to appear calm at moments, but it's worth it. Men like restful women. They may be amused and momentarily pulled along by a whirlwind, but they don't, as a steady diet, like whirlwinds—not enough to marry them, anyway.

Burning the Candle

You can't possibly enjoy the party or give pleasure to others if you are all frazzled out on arrival, and you certainly can't give satisfaction in your job if you arrive all tired out in the morning. You really can't constantly burn the candle at both ends.

Two nights out a week is about all any business girl can comfortably manage, and now that the hectic week-end season is upon us, unless one is possessed of herculean strength, the best one can do is recover sufficiently from one week-end to enjoy another.

The modern method by out-of-town hostesses of "throwing" a party at high noon should be discouraged. Buffet luncheons are all very well if one has gone to bed at a reasonable hour the night before. But that's not likely to be the case any Friday or Saturday night from now to Labor Day.

Don't try to do too much—you will have better time at the parties you do attend if you skip a few in between. True enough, one is only young once, but from personal observation all enjoyment does not end with youth. The middle-aged set themselves a breathless pace and seem to have a high old time, so don't be greedy and think you must crowd in everything now. In the meantime if you go out you must make things as easy as you can for yourself by systematizing your preparations.

Cleaning Small Rugs

To prevent small rugs from crumpling up while being swept with a broom or carpet sweeper or vacuum cleaner, clean with crosswise strokes.

EFFECTIVE COSTUME JEWELRY

Patricia Ellis, film starlet, sponsors the wearing of costume jewelry for evening. Here she matches a rhinestone necklace with a pair of pendant rhinestone and emerald earrings.

LONG FACES OUSTER BY DEMOCRATS

(Continued from Page 1)

The five Congressmen, Cleveland, J. L. Sanders, John N. Sanlin, Numa Montet and Riley J. Wilson, have been in conference here three days with anti-Lane leaders working out a plan to deal with the Louisiana dictator who has been called Mr. Roosevelt "a liar and a faker." They issued a joint statement this evening.

"Lane does not speak for the people of Louisiana in his attack on President Roosevelt," said the Democratic party. "We have the prediction that the Roosevelt ticket will sweep the State in January and end a political regime that has been at once a disgrace and a shame to the State and the Nation."

SUPPORT CITED

The Congressmen were believed to have the support of:

1. The "Young Democrats" organization.

2. The Roosevelt Clubs, which include most Federal workers.

3. The remnants of Mayor T. S. Walmley's New Orleans clique, which did not "sell out" to Lane two weeks ago.

4. Various anti-Lane groups, including the militant Square Deal Association, which boasts 70,000 members, "drilled, armed and ready to fight."

LONG LEADS PARTY

Long snared into the party saddle last year. Escorted by several carloads of his bodyguards and henchmen in high State office, he stormed a meeting of the State Central Committee, ousted the officers and had himself elected chairman.

He has made no attempt to capitalize on this office, and has often said he may run for president himself in 1936, on his "share-the-wealth" ticket. First, though, he plans to run for re-election to the United States Senate at the Democratic primary in January.

RELIEF BUDGET MOUNTS HIGHER

(Continued from Page 1)

under the new legislation, which will go into effect September 15, the number will rise to about 437.

The maximum sum has also been raised, from \$30 to \$35 monthly, while property limitations have been made more lenient. Personal property owned by applicants may now be as much as \$500 in contrast to \$250 before the passage of the old age security act, and property may amount to the sum of \$3,000 assessed rather than real.

Aid for the blind is computed on the basis of a 21 percent increase, amounting to a proposed expenditure of \$12,500. There are at present 25 cases of blind receiving aid.

The sum proposed for care of indigents is \$178,200, totaling for all social service work a sum of \$291,700. Administrative costs have been computed at \$24,750, of which \$26,520 is proposed for salaries, \$7,650 for maintenance and \$5.00 for capital outlays.

The proposed expenditures do not, however, take into consideration federal aid and legislation now pending, which may raise expenses for the aged 50 percent, according to this law, director of the social service bureau. The increase would represent \$142,750 in Contra Costa county.

One half the funds for aged relief is paid by the state or federal government and the remainder by the county, which, however, may make the initial disbursement.

Under the old age security act, applicants must have lived in the state 15 years and in the county one year, immediately prior to application. The minimum income from all sources, including aid, will be \$20 and the maximum \$25 per month.

An applicant is not eligible if he has a spouse or child on whom to depend for support.

MRS. PRIMUS BENNETT, wife of the former pastor of the First Christian church and now of Logansport, was a visitor here yesterday.

Suspect Freed After Lie Detector Fails To Link Him With Crime

(Continued from Page 1)

story convinced investigators that they had no legal grounds on which they could hold him.

TO QUESTION RESIDENTS

Today Sheriff Miller and deputies will question Pittsburg witnesses in an attempt to establish the truth of stories told by both Lombardo and Mrs. Ferrando.

The woman was also submitted to the lie detector yesterday morning but once again the machine proved of little value in the investigation.

The woman was arrested on Lombardo's complaint when he said she had stolen \$35 from his shop and living quarters at Pittsburg. Lombardo was described as her suitor.

TELLS STORY

Questioned about the murder, the woman refused to make a statement at first, declaring that she had to be assured that her son, John, 18, would be protected. She said Lombardo had threatened him.

Given this assurance, Mrs. Ferrando then told police she had visited Lombardo in Pittsburg on June 1 or 2 in answer to a letter from him.

SAW KEY TO CAR

He asked her to marry him, she said, and told her he had purchased various articles for her, including a washing machine.

"I went to look at the machine and found a pile of clothing on top of it," she said. "When I moved the clothing a key fell from the pile. It had a dirty piece of string tied to it and I recognized it immediately as the key to my husband's truck."

Mrs. Ferrando said that Lombardo tried to seize the key from her and they struggled for its possession.

"He got it and kept it," she said. When informed of her story, Lombardo told police he never saw the missing key and knew nothing about the murder until he was told about it the next day.

Troops Sent To Mexican Revolt Area

(Continued from page 1)

Cardenas to take control in Tabasco, long ruled by Garrido, Mexico's bitterest church-batterer, found a tense situation.

TROOPS CALLED

Additional Federal troops were called to break the power of the Red Shirts, who drove the church from the province, defied the Federal government and were responsible for 12 political murders at Villahermosa on July 15.

At Vera Cruz, former Tabascans celebrated suspension of state control and constitutional federal dictatorship in their home state.

ACTION CHEERED

Throughout the country churchmen and Republicans celebrated Cardenas' prompt action in Tabasco, taken after an investigation of the same sort as is proceeding now in Tamaulipas.

"Cardenas has corrected years of brutal dictatorship," the newspaper Excelsion exulted.

CHURCH GRATIFIED

"Action against Garrido marks a great triumph for revolutionary rights," El Nacional said. Churchmen were "gratified" over the downfall of Mexico's greatest anti-religious figure. The church soon may resume activity in Tabasco.

League Meet To Test Ability To Maintain Peace

PARIS, July 24 (UP)—Premier Pierre Laval and League of Nations secretary, Joseph Avenol, agreed today to summon the League Council July 25 to intervene in the Abyssinian conflict.

Their suggestions will be submitted to the council president, Maxime Litvinoff, Soviet foreign minister, who has asked members to be ready for an emergency session.

Diplomats tonight wondered whether Italy would attend the council in view of England's determination to call for a showdown on ability of the league to maintain peace.

BANS DEMONSTRATIONS

ADDIS ABABA, Abyssinia, July 24 (UP)—Emperor Haile Selassie today discouraged patriotic demonstrations by his subjects in the hope that European neutrals, lead by England, would avert Italy's threatened war on Ethiopia.

The monarch purposely refrained from ordering general mobilization because he knew it would be impossible to restrain his excitable ebony warriors once they are under arms.

INSTRUCTOR IS JAILED IN PROBE

SALT LAKE, July 24 (UP)—Charles George Hubbell, 26-year-old music teacher at Gonzales Grammar School, made himself an object of school students when they reported to him for individual instruction, led to his arrest today.

He was taken into custody in San Jose, where he is temporarily staying at the local jail house.

CHARGES MADE

A complaint charging that he had seduced a 12-year-old girl, but that the girl, 12, and her mother, 35, were denied by county coroner, G. B. Jones, Oct. 1.

Hubbell, alleged seducer of the girl, was arrested in the complaint and returned to the county jail, two months after his arrest.

PROBE IS MADE

An investigation was conducted by the district attorney on complaint of the girl's parent. Action was deferred, in the belief that Hubbell's contract at the school would not be renewed.

When Hubbell failed to notify his father, Hubbell, the parent demanded action. Hubbell, on road, was asked to return by the school trustees, but refused.

Rabbit Has Air Conditioned Hutch

FULLERTON, July 24 (UP)—A white rabbit, Peter, by name, was the envy of all men of the town but kingdom today.

For Peter is believed to be the only rabbit, white or otherwise, who can boast of having a modern, air conditioned rabbit hutch.

While other rabbits are content about searching for food from the summer sun, Peter is basking comfortably in a temperature of 42 degrees in the interior of an ice refrigerator on display at the local ice company's office.

Although he doesn't know it, his real function is to demonstrate the constant natural circulation of air in an ice refrigerator to prospective buyers. All Peter knows is that he's getting plenty to eat and drink and that he's a lot cooler than he ever was before in any July that he can remember.

Half and Half

TANCIE YOUNG displays the "garillon," the world's new vegetable. It is half onion and half garlic, and combines the sweetness and juiciness of the onion with the flavor of garlic. Although it is the size of an onion, it consists of cloves resembling the garlic.

More Grief For The President In Island Probe

WASHINGTON, July 24 (UP)—Senatorial displeasure over the Administration's "settlement" of the Virgin Islands situation, tonight threatened more fireworks for President Roosevelt.

Less than 24 hours after he removed Paul M. Pearson as governor of the islands, the chief executive was informed that Laurence Cramer, the new governor, would come under the searching inquiry of the special Senate committee investigating island conditions.

Senator Millard Tydings, D., Md., came to the White House late today with his investigating committee and while he insisted the call was to discuss island policies, it was reported that he was against a continuation of anything that smacked

of the old Pearson regime. Cramer was lieutenant governor of St. Croix, an island and as such was under the command of Pearson.

After his visit, Tydings said that the investigation would be continued probably the first of next week.

ROBBED CITY HALL

BERKELEY, July 24—James Baldwin, 30, former convict found working on an SERRA project at the Berkeley city hall, has confessed to a half-dozen burglaries here today.

Baldwin was taken into custody when a quantity of material was missed from the radio laboratory in the city hall and Police Inspector Frank Waterbury recognized him from previous encounters in 1929 and 1932.

BRANDING IRON FOUND

KERRVILLE, Tex., (UP)—A branding iron of the Reconstruction days, bearing the letters "J.O.C.," was unearthed by workmen excavating on a building site.

John Ochs & Co. recorded the brand on January 11, 1867.

U.S. EXPECTS TO FORTIFY POSSESSIONS

WASHINGTON, July 24.—UP—The United States is studying a proposal that it fortify the Aleutian Islands, Guam and possibly other possessions in the Pacific when the Washington naval limitation treaty expires December 31, 1936, it was reported unofficially tonight.

The proposal follows informal denunciation of the 5-5-3 ratio of naval strength laid down in the treaty for the United States, Britain, and Japan by both Tokyo and London.

AWAIT WORD

An official indication of the United States' decision to retain naval mastery of the Pacific may be expected shortly, it was understood although the State and Navy departments refused to comment tonight.

London cables today said reports were circulated there that, following Britain's denunciation of the naval ratios this week, Washington was expected to declare the non-fortification clause must be abandoned.

OBJECTIONS EXPECTED

Britain probably will not object to the move, Japan, while she might object unofficially, hardly would make formal protest because of her action in being first to scuttle the Washington arrangement.

The provision by which the United States promised not to fortify the Pacific except along the mainland, Alaska and the Canal Zone was contained in Article 19 of the Washington treaty.

DR. A. J. DONOGH, local dentist, is attending the Pacific Coast magician's convention at Hollywood, in company with Clarence Cain.
